<b>Office Action Summary</b>	<b>Application No.</b> 10/597,216	<b>Applicant(s)</b> UCHIDA ET AL.	
	<b>Examiner</b> Guy G. Anderson	<b>Art Unit</b> 2883	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

**DETAILED ACTION*****Drawings***

- 1.1 Figure 11-12 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Information Disclosure Statement***

- 2.1 The information disclosure statement filed 7/17/06 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.
- 2.2 The information disclosure statement filed 7/17/06 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered.

***Claim Rejections - 35 USC § 112***

- 3.1 The following is a quotation of the second paragraph of 35 U.S.C. 112:  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 3.2 Claim 1-2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 recites "...optical fiber bundle reaches said emission window to be exposed." Examiner is unclear as to what "exposed" refers to in this claim.

Art Unit: 2883

Further, claim 2 recites "...exposed surface of said unitized optical fiber bundle in said emission window is on the same level with a surrounding surface of said housing."

Examiner is unclear as to how this is achieved. The exterior surface of the emission window [7] appears from the drawings to be on the same level with a surrounding surface [17]. The fiber bundle end faces must thus end on an interior surface of the emission window, and cannot be on the same level with the surrounding surface.

***Claim Rejections - 35 USC § 102***

- 4.1 The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

- 4.2 Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by US-3818902 to Kinoshita.

- 4.3 Regarding claims 1-2, Kinoshita disclose an endoscope assembly comprising:

1) A camera integral with optical fibers, said camera comprising: a tubular housing [Fig. 2, #4] having an emission window [Fig. 2, #6]; and a unitized optical fiber bundle which is a bundle of light guiding optical fibers unitized on an inner surface of said housing [Fig. 2, #10], wherein said unitized optical fiber bundle is provided on and bonded to said inner surface of said housing with said fibers bonded together by a bonding agent, and wherein an end section of said unitized optical fiber bundle reaches said emission window to be exposed. [Col. 2, lines 10-25.] [Abstract, Fig. 2, #4, 6, 10, Col. 2, lines 10-25.]

2. The camera integral with optical fibers according to claim 1, wherein an exposed surface of said unitized optical fiber bundle in said emission window is on the same level with a surrounding surface of said housing. [Abstract, Fig. 2, #4, 6, 10, Col. 2, lines 10-25.]
